MB CRUSHER BUCKET MB-L

HIGH PERFORMANCES, CONCRETE ADVANTAGES

- Available in 8 models, MB Crushing attachments offer the most advanced, innovative solutions to work site crushing requirement. Attachable to any excavator, MB's equipment has radically changed the crushing sector.

First of its kind on the market, MB Crusher Buckets remain leaders in on-site crushing, reducing the use of mechanical equipment, limiting personnel needs, and virtually eliminating transportation and dumping costs.

Moreover, specific accessories that can expand the usability of the Crusher Bucket are available: the universal quick coupling, mechanical or hydraulic, and the exclusive iron separator, which makes it possible to easily separate rebars and iron parts after crushing.

The MB-L Crusher Bucket is small in size but offers a very high productivity, works with loaders, skid loaders, and backhoe loaders. Easy to transport and available in two models, it is suitable for all job sites and applications, including small ones.
