Raptor™ SERIES DUMP BODIES

Elliptical Style Lightweight, High-Strength Steel Construction

The Raptor™ combines a smooth design with the strength to get the job done. Constructed of super high-strength steel, the Raptor actually weighs less than standard bodies, while providing the same capacity! The elliptical design provides optimum performance in the field.

When it comes to the really tough jobs, the RipRaptor™ provides the heavy-duty design and construction to power through, taking on rock and demolition materials with ease.
